# **Develop Alumni Network for Pacific Leadership Academy**

Project Title	Develop Alumni Network for Pacific Leadership Academy
Project Summary	Engage hundreds of Senior Government Leaders to establish Alumni Network for the Pacific Leadership Academy.
Country	United States

#### **Project Description**

The project will consist of developing tools and methods of communication in order to establish an effective networking platform for Pacific Leadership Academy (PLA) graduates. For more than a decade, Pacific Leadership Academy has produced hundreds of graduates that have moved on and advanced in their careers. The project will seek to pull those graduates/alumni back into the network and establish easy-to-use programs for current/future alumni to maintain communication beyond program completion. Providing a platform for PLA graduates/alumni to collaborate, network, and continue to grow as leaders would only further enhance the influence of the PLA on these leaders.
